success

A hand is shown placing a wooden block labeled "BUSINESS" on top of a wall. The wall is constructed from numerous wooden blocks, each inscribed with a business-related term. The blocks are arranged in several rows, with some terms appearing in different colors (e.g., "QUALITY" in pink, "STRATEGY" in purple). The background shows a blurred view of a modern building with large windows. The overall scene suggests a metaphor for building a business or achieving success through various factors.

Manufacturing

Manufacturing Quality, Delivering Trust

We, at Maxroof have our own, state-of-the-art manufacturing plant. We leverage this factor to sharpen our competitive edge.

Our manufacturing facility sets us apart from the competition in following ways -

Scale

We have one of the largest manufacturing capacity in Metal Building Solutions in India, having a capacity of 80,000 MT per year.

Vertical Integration

We manufacture vertically all parts & components used in Metal Building, using highest quality raw materials.

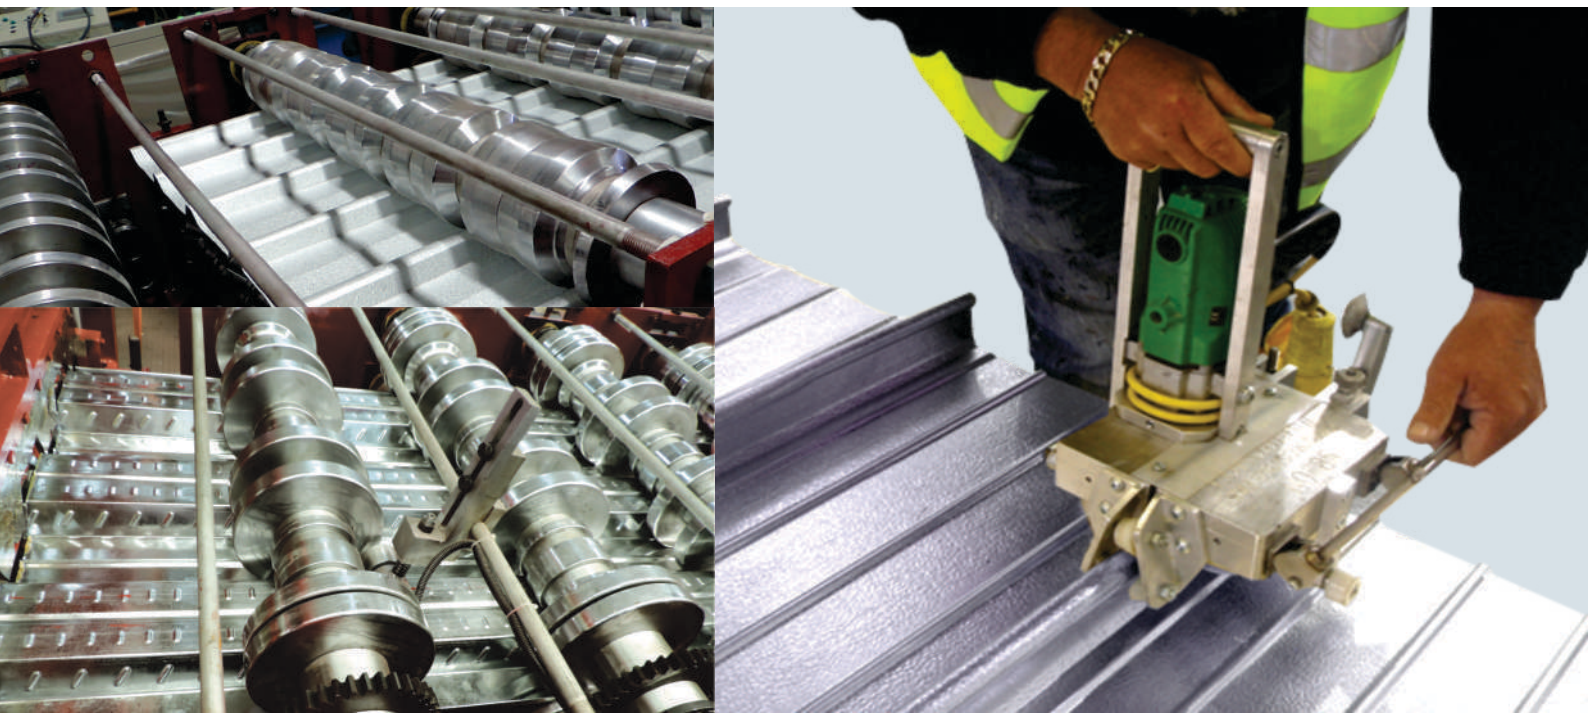

Flexibility

We offer products with a wide range of choices. Our manufacturing facility are extremely flexible, allowing us to produce roofing systems exactly to our customers specifications.

Technology

BEST TECHNOLOGY

For Better Tomorrow

Maxroof is committed to bring to it's customers the best technology in metal building solutions and constantly working for new technologies to incorporate into our system.

Maxroof is the leader in providing integrated architectural design, state of the art engineering along with manufacturing, installation & maintenance solutions for Metal Building Industry and we make sure that we incorporate latest technology in our day to day activities.

Quality

**QUALITY is not a Service
it is a HABIT**

At Maxroof, we adhere to a well defined quality control system, wherein every process involved is stringently monitored.

Over the years, we have developed a flawless Quality Assurance System that is only matched by the passion of each team member to deliver the best. Our quality controllers meticulously check our products to ensure that these are in conformance with industry standards.

Adding to this our state-of-the-art facility which has quality evaluation instruments to conduct checks of our roofing systems, decking systems, purlins, other roof accessories etc. for sturdiness, dimensional accuracy, geometry, chemical composition etc.

We have our own manufacturing plant which gives us better control of deadlines, quality and better customer satisfaction.

Our quality assurance system keeps in sync with the international standards. The unmatched quality of our products have helped us in gaining the trust and respect of our valued customers.

Team Work

TEAM WORK makes the DREAM WORK

A competent team committed to deliver customer satisfaction. The team at Maxroof comprises of a perfect blend of young and qualified, well trained and experienced professionals who work in perfect sync with one another. They design products as per the necessities of the Clients/Architects and offer them with best solutions for their projects. Our team of engineers, designers, quality controllers and other professionals with their continuous efforts have ensured a huge client base and an innovative array of metal building solutions.

Safety First

SAFETY Starts With Me **Health, Safety & Environment**

At Maxroof, we strictly follow safety norms that ensure safety for our team along with no risk to their health & safe working environment. This gives reassurance not only to our team, but also to our customers on care, ensuring hassle free & optimal performance.

We exert every effort to abide by all regulations as they pertain to the construction industry / manufacturing units, which is set forth as per industry standards & good practices as dictated by location and circumstances.

We employ procedures and systems designed to prevent activities or conditions that pose threats to the environment. We communicate our commitment to environmental protection to our employees, suppliers and customers. We continuously seek opportunities to improve our understanding and adherence to these principles.
